NUMBER 14

With Everybody Happy, Color Change Is Now Being Debated

Faculty Athletic Committee in Conference With Burdette Yeo, Student President, Discussing Matter From All Angles.—One Hour Not Enough, So Subject Is Laid On Table For Later Action.—Several New Scientific Facts Specially Discussed.—A Happy Understanding Looms as Certain.

The proposition to alter the College colors, which started with a petition from the Athletic Department to add black to the present green and white, and which almost ended in a mix-up of misunderstandings, bids fair to come out all right in the end with everybody well and happy.

At 9 o'clock Tuesday morning the Faculty Athletic Committee on Intercollegiate Athletics met with Burdette Yeo, president of the student government association, to discuss the matter. At 10 o'clock the surface had been barely scratched, and the matter was laid on the table until 11 o'clock Thursday morning, when the committee will meet again.

Political Student Council.

Mr. Lawrence and Mr. Jones of the Department of Physical Education petitioned the Student Council several weeks ago to add black to the College colors because it made a more serviceable background color. They brought forth the argument that the green which has been used for a basic color in years past is a color which fades rapidly and soon presents a shoddy appearance.

It was also asked in the petition that the nickname of the College athletic teams be changed from "Bearcats" to "Wildcats."

The Student Council went into the matter thoroughly, and, finally, on a Tuesday morning, voted down the petition. It so happened that while the Student Council was in session the Faculty Athletic Committee was also meeting. Mr. Lawrence and Mr. Jones brought up the matter of adding black to the College colors, and the committee expressed its opinion against changing the school colors in any respect. It did, however, give as its sense that the matter of the colors of playing equipment for the athletic teams was one which came within the judgment of the director of athletics.

Equipment Is Ordered.

Following this meeting, Mr. Lawrence ratified a tentative order, placed some time previous, for basketball equipment for this year, in which black was the basic color, although the school colors of green and white were also used.

The action of the Student Council was not announced immediately, and when the announcement came the playing equipment was already ordered and was being made.

After it had been announced that the play up equipment used black the Student Council voted a protest against the matter. The protest was printed in this newspaper, and the committee meeting Tuesday morning was the result.

Mr. Wilson, chairman of the Faculty Athletic Committee, presided at the meeting Tuesday, and both Mr. Lawrence and Mr. Jones, as well as Burdette Yeo, spoke.

Misunderstanding Evident.

While the committee did not get far into the matter, it was evident at the meeting that there was a general misunderstanding, and that neither the Student Council nor the Athletic Department wished to be arbitrary or dictatorial. Mr. Lawrence and Mr. Jones presented a great deal of scientific argument on the question of the use of black. These arguments tend to prove that black and white are scientifically the best two colors for playing jerseys. Mr. Jones presented arguments and offered specimens to prove that the angle of visibility is far greater with black and white than with other colors.

He showed that it is possible to see a person in a black or white sweater farther "out of the corner of one's eye" than if the sweater were of another color.

"We find that in basketball, particularly, it is a great asset to be able to see a teammate out of the corner of your eye. You know where he is and can pass to him," the coaches said. "With black or white sweaters this is far more possible than with green."

Efficiency Is Sought.

It was then brought out that since white jerseys are required by Missouri Intercollegiate Athletic Association when the team is playing at home, that the coaches were only trying to increase the efficiency of the team on the road as well, for it is there that colored jerseys must be worn.

The matter will be finally settled at

COLOR CHANGE EPOCHS

- 1.—In 1926 basketball season Mr. Lawrence uses black basketball trunks for his Bearcat team.
- 2.—At close of 1926 football season, Mr. Lawrence places tentative order with sporting goods house for basketball equipment with black the basic color and with green and white trimmings.
- 3.—Several athletes say they wish that the honor sweaters given by the College were black instead of green because the green sweaters given by the school do not hold color.
- 4.—At the request of several athletes and after several conferences on the matter Coaches Lawrence and Jones petition the Student Council to add black to the College colors and change the name of "Bearcat" to "Wildcat."
- 5.—The Student Council has numerous hearings on the matter, getting opinions from many students and alumni.
- 6.—Student Council in executive session votes down petition.
- 7.—At the same hour that Student Council is in session Faculty Athletic Committee discusses petition and unanimously agrees that school colors should not be changed. Committee, however, expresses its belief that matter of playing equipment can best be handled by athletic director.
- 8.—On strength of opinion of Faculty Athletic Committee, and without knowing of action of Student Council, Coach Lawrence writes sporting goods house to fill tentative order.
- 9.—Maryville Democrat-Forum and College Northwest Missourian carry description of new playing equipment.
- 10.—Student Council voices protest against purchase of equipment after it had rejected petition.
- 11.—Faculty Athletic Committee and Burdette Yeo, student president, discuss matter at 9 o'clock Tuesday morning, and finally lay matter on table until 11 o'clock Thursday morning.

the committee meeting Thursday morning, and then Mr. Yeo will likely present the report of the committee to the Student Council in regular session Thursday night.

Y. W. C. A. Postpones Membership Drive

Program of Music and Review Given At Regular Meeting of Organization Tuesday.

The Y. W. C. A. voted to postpone its membership drive due to the illness of Dorothy England, until a later date. Cards of thanks were received from Mrs. C. C. Leeson and Mrs. A. R. Perrin and from Miss Lowery, for flowers sent during illness.

Opal Spain led the singing and the devotions were in charge of Evelyn Evans. Dottie Davis gave a violin solo and Yada Cliser and Mrs. Floyd Moore sang a vocal duet. A short review of the book of exodus was given by Helen Cottier and Helen Qualls.

Interesting Program at Science Meeting

Several New Members Taken Into Organization.—Matie Evans Is the President.

An interesting meeting of the Social Science Club was held in the Recreation Room of the College Wednesday night, January 12. The following program was given.

"The Need of Social Science"—Mr. Foster.

"Report on the American Historical Association"—Byron Beavers.

"Report on the American Sociological Association"—Leland Medsker.

"Parliamentary Rules"—Ethel Bostwick.

Each member responded to the roll call with a current event.

The program committee is composed of Florence Best, John Hathway, and Leland Medsker.

The Social Science Club ranks high

among the various College organizations as was shown by the recent figures issued by Miss Hudson, showing the standing of the College organizations and clubs.

Several new members have been taken into the club. They are Mrs. Mary Esther Murphy O'Banion, Olin Wakely, Clyde Rowland, Alfred Walton and Glen Cain.

The officers for the winter quarter are president, Matie Evans, Vice-president, Gerald Carrol; Secretary, Russell Lewis; Treasurer, Ethel Bostwick.

Bearcats Win in Last Minute of Saturday's Game

Morningside College Team of Sioux City Bows to Green and White by a score of 31 to 27.—Fast and Furious.

Last minute field goals by Orville Hodges and Paul Burks won a basketball game for the College Bearcats last Saturday night from the Morningside College quintet of Sioux City, Ia. The score was 31 to 27. With but one minute to play the Iowans were leading, 27 to 23, and with but thirty seconds left in the game and the score tied, Hodges and Burks each tallied a two-pointer for the victory.

The Morningside team holds the championship of the North Central conference in Iowa. The team which played here Saturday night was well balanced and fast. On Friday night it had lost a hard fought game to the Hilliards of St. Joseph by a 25-40 score.

Lead at Half, 18 to 10.

The Morningside team started the scoring of the game and led after about three minutes of play. However, the Bearcats opened up on the offense and were soon in the lead. At the end of the first half the score was 18 to 10 in favor of Maryville, and an easy victory seemed assured.

At the beginning of the second half, however, Van Clitters, Morningside captain and guard, dropped in four successive field goals from midcourt. The effect was demoralizing to the Bearcats and was an incentive to the Iowans, (Continued on Page 4)

Hear the Dorm Orchestra—Feminine syncopators—Jazz galore—Campus Comedies—Friday Night.

Coaches Lawrence and Jones Have Made a Fine Record Since They Have Been Located at S. T. C.

M. Lawrence and Mr. Jones, coaches at the College, have made enviable records, both while connected with the school here, and while they were students at Missouri Wesleyan College in Cameron and at the University of Kansas, respectively.

Under the direction of, these two men athletics at S. T. C., have taken a turn upward, and now Maryville athletic teams are feared and respected by all other teachers colleges of Missouri and by other colleges of the state as well.

"Weak" Until About 1920

Up until 1920 athletics at the Northwest Missouri State Teachers College had been more or less negligible. Earlier in the century the schools had turned out some teams and had had some good coaches, but about 1920, athletics didn't amount to so much here.

Mr. Lawrence

Therefore all of the offense games were first forfeited because Maryville had no legal team and were then playing for the joy of playing. No matter whether the Bearcats won or not, they lost in conference standing.

Recruited from M. H. S.

Robert C. Rice was the coach in 1920. He was not an exceptional coach and his material was no better. The next year he was followed by Russell Sprong an all-Valley football man, who had mediocre success. Then came Eugene Maynor, who lasted but a year, and

Teachers Ass'n First to Build Permanent Home

President Lamkin Chairman of State Committee in Charge of Building \$50,000 Structure in Columbia.

Construction of a \$50,000 building to form the permanent home of the Missouri State Teachers Association will be started at once, according to President Lamkin who is the chairman of the building committee of the teachers association. The College President met with his committee in St. Louis

Monday and awarded the contracts for the building, which is to be a two-story affair, erected just west of Parker Memorial Hospital at the University of Missouri in Columbia.

The building committee of the association has been having regular meetings since the annual meeting of the state association last fall, and now everything is in readiness for the new home of the organization, which is to be completed by August.

Missouri a Pioneer.

The Missouri Teachers Association will be the first in the United States to build its own home. A pioneer in the plan, it was the first to take steps toward a concrete building program. Pennsylvania and Kansas teachers associations are now located in permanent homes, but neither of these was built for the purpose. Both were purchased.

Mr. Lamkin announced that the contract for the new home for the association was awarded to Edward H. Kuehne of Jefferson City. The plumbing contract went to J. Lewis Crum of Columbia, and the Platt Electrical Shop of that city got the wiring contract.

The new building will be a two-story affair. On the first floor will be the general offices, an office for the reading circle secretary, and the reading circle workroom. On the second floor will be a large library and offices for the editor of the School and Com-

(Continued on Page 2)

him and he was on the squad in each sport, although he did not win his letter. He was a member of the athletic board of the University of Kansas and was president of the K. club. In his senior year he captained the football team.

Mr. Jones was graduated in 1920 with the L. L. B. degree. He started practicing law in Council Grove, Kan., and coached the football team of the high school on the side.

Politics called him and he ran for the office of prosecuting attorney. It was an off year, however, and the Republican candidates also ran.

Then Mr. Jones went to the Rosedale High School of Kansas City, Kan., where he coached for one year, and then came to Maryville.

Mr. Jones was married on May 1, 1923. He and Mrs. Jones have two children; Mary Jane, age 3, and Paul, Jr., who was born the day before last Christmas.

Coach Lawrence was the only coach of the Bearcats in 1923. With new material he more than broke even in football, winning five games, losing four, and tying one. The next year he and Coach Jones produced a team which won seven games, lost one, and tied one. In 1925 seven games were won and one was tied, and in 1926 the team won six games and lost two. The Missouri Intercollegiate Athletic Association football championship was tied for with Kirksville in 1924 and was won in 1925.

In basketball the Bearcats won third place in the conference in 1924 and 1925 and won the championship in 1926.

In track the Bearcat coaches produced a relay team in 1924 which won the muddy relay at Drake. The following year the team won six out of sixteen first places in the state meet.

Basketball and baseball also drew

PLEASE DO YOUR BIT

Have you had your picture taken for the Tower? Have you turned in your contributions for the Tower? Have you cashed your coupon for one-third of your Tower?

If you haven't done all of these things, do them at once. The Tower staff is bending every effort to get its material to the engravers and the printers as soon as possible. It is now near the deadline, and they are appealing to the students of the College to do their bit.

In the activity book which every student receives at the beginning of each quarter there is a coupon good for one-third the price of the annual. These coupons must be turned in to Ward Barnes, business manager of the annual, at once. In case you have not turned in your coupon you will find him in Room 212, or you may leave your coupon there in case he is not present.

Please help the staff of the yearbook by carrying out your part of the agreement at once.

Mr. Cooper Gives Seven Principles for Vitalized Ed.

Creed for Rotation Plan Also Given by Director of Extension, a Pioneer in Vitalized Agriculture Work.

Mr. Cooper

Mr. Cooper, director of extension at the College and one of the leaders in the vitalized agriculture movement of the country has given seven foundation principles for the subject of vitalized education.

In speaking of vitalized education, he said, "In common with the leaders in modern educational thought we hold certain educational principles as basic and important.

"In the first place, actual experience with real things in real situations is an essential of learning. In this manner the thing to be taught is vividly portrayed before the eyes and is more forcefully brought to the mind.

Rural Education Expert to Be at College a Week

Orson Ryan, Teacher, Writer and Lecturer to Hold Two Special Classes Daily Beginning Monday.

Orson Ryan of Logan, Utah, teacher, writer and lecturer will conduct work at the College for one week beginning January 24.

Mr. Ryan was for a number of years county superintendent of schools of Carbon County, Utah, where he made an enviable reputation for himself as professor of rural education at the State Agricultural College of Logan, Utah. He has directed the National Normal Summer School at Logan for the past five years.

He is a lecturer and writer of recognized ability in the field of rural education and has been a regular contributor to the Popular Educator for the past five years, his articles appearing in practically every issue.

Hold Two Classes Daily.

He will hold two classes daily at the College, one at 8 a. m. and the other at 1:20 p. m. These groups will then work in smaller divisions in rural school activities during the student's vacant periods during the day. The classes will be limited in number and those wanting to join should enroll now with Mr. Cooper.

The teachers college at Kirksville has assisted the local College in bringing Mr. Ryan here to conduct classes. He is now at Kirksville and will come to Maryville next week. Last year he conducted such classes at the University of Nebraska for five weeks during the Summer Course and will return there for a like period this coming season.

Tells Rural School Facts.

In speaking of the rural schools, Mr. Cooper pointed out that more than 70 per cent of the present students would at some time or other teach in the rural school. Although the rural schools have been sadly neglected by educators and legislatures nearly 60 per cent of the Presidents of the United States have come directly from the rural schools, 59 per cent of the leading bankers of Wall Street and many of the present day leaders received their early education in the "little red brick school house."

Arrangements may be made with the instructors so that the students may attend these classes, even in case of conflict. All who can possibly do so are urged to attend these classes.

The stars for Maryville are numbered by the men whom Coach Lawrence used in the game. The outstanding success of it all is measured by the fact that the team played as a team and not as individuals. From the first whistle it could be seen that the Bear-

Bearcats Lose Thrilling Game to C. C. C., 38-34

College Team Played Wonderful Brand of Basketball Last Night.—Game a Moral Victory.—Now for the Conference Season.

The College may well be proud of its basketball team. Playing against a quintet of nationally-famous stars with the Catholic Community Club of Kansas City last night on the home court, Coach Lawrence's men vindicated themselves before a large crowd of spectators, in spite of the fact that the game was lost, 34 to 38.

It was a rip snorter basketball game, with interest at a high tension all the way. Stinging from an overwhelming defeat at the hands of the clubbers two weeks ago, the Maryville team went into the game with the odds heavily in favor of the opposition.

And, oh what a game those Bearcats did play. Not a soul in the crowd which sat on the end of its seat all through the tilt has aught but commendation for the Green and White, and today all of the Maryville players are heroes in the minds of their followers.

Fast, During Game.

It was a fast, driving game at a pace which kills. Beginning with the first whistle and lasting until the final gong, the ball was over in motion, and the crowd was in a frenzy.

The Triple C's started the scoring after about two minutes of play. A pair of fast field goals took them into an early lead, which they were able to maintain for the time being. But the Bearcats were not to be denied, and for every field goal by the Kansas Citians there was a two-pointer for the Bearcats.

First one would score and then the other, until the first half was nearly over. Three points separated the two teams.

Then the Bearcats spurred, and in a jiffy were leading with the count at 15-14.

Bearcat hopes were high—but only for a moment, for in the last minute of the half the visitors engaged a pair of sleepers and a free throw to make the lead five points at the end of the half. The score was 20-15.

First Fast; Second Faster.

The first half had been fast, but the second was faster, and witnessed a comeback such as has not been seen on a Maryville court for many a day. The Bearcats opened the second canto with a neat field goal, to again cut the lead to three points.

And then the scoring orgy for the Catholics started. With Maryville having seventeen points, the visitors spurred and scored field goal after field goal. The score mounted and mounted again, and with thirteen minutes of the half gone it looked as though the Bearcats were to be sadly snowed under. The count had reached twenty-five and then thirty, and finally thirty-two, and still the Bearcats hung at seventeen.

Coach Lawrence hurriedly consulted with himself, and immediately "pulled" Ungles and Hodges, Maryville forwards and substituted Davison and Lisle.

Back In They Come.

But it was only for a moment—only for long enough to give the two forwards a rest and to give the coach a moment in which to advise them. Then back into the game they went.

Then the comeback started. A field goal by Ungles, a two-pointer by Burks, and neat shot by Hodges, and a long one by Joy.

Maryville players were going wild and Maryville fans were going wilder. The score of the Bearcats climbed, and the visitors were curbed. Soon but six points separated the two teams. Then four. Now but two.

And then the club made a basket, and yet another. Then Maryville scored again. And from then on it was so exciting that no one knows what happened until the timer's gong sounded, and the game was over.

Yes, it was a wonderful game. It was a feather in the Bearcat's cap, for the Kansas Citians certainly can play basketball.

All Players Stars.

The stars for Maryville are numbered by the men whom Coach Lawrence used in the game. The outstanding success of it all is measured by the fact that the team played as a team and not as individuals. From the first whistle it could be seen that the Bear-

COLLEGE OATH
"We will never bring disgrace to this, our College, by any act of cowardice or dishonesty. We will fight for the ideals and sacred things of the College. We will respect and obey the College laws and do our best to inculcate a like respect and reverence in others. We will transmit this College to those who come after us, greater, better and more beautiful than it was transmitted to us."

THE HALFWAY MARK.

This winter quarter is half over. The mid-semester examinations are now all over or are almost over, and school is turning and is coming in on the backstretch.

With half of the quarter over, what have you accomplished? Have you completed half of the work in all of your courses? Have you done each day's work when it should have been done?

Or have you been one of those who put off and put off your work? If you have, this is a warning. The tide has gone out, and it is coming back in. You may have ridden out on the crest of the waves of bluffing, but can you stay on top until the tide brings you safely to the haven of a course completed and a grade won?

Many of us procrastinate for so long a time that it is hard to get down to business. We keep saying, "I'll do it tomorrow." But tomorrow has not come, and the race is now half over. How are you running? Are you barely keeping up with the other runners? Are you panting and exhausted, or have you plenty of reserve energy to carry you through to the finish?

But the happy thing about this halfway mark is that it isn't too late. You still have plenty of time to make amends if you have been letting things slip. You still have the opportunity to come back and finish with your classmates.

But you must work, and while you are working remember that it is easy sailing for those who have done their work day by day.

A NEW HOME.

Work has been started on a new home for the Missouri State Teachers Association. This building is to be located at the University of Missouri in Columbia, and will be the first home to be built by a state teachers association.

That means that this will be another of the things educational in which Missouri stands at the top. Noted educators have said that Missouri state teachers colleges are the best in the country, and now comes another thing to speak well for the school system of this state.

It is true that both Pennsylvania and Kansas teachers associations have permanent homes. But they were homes which were built by some other interests and then bought by the teachers.

Missouri is the pioneer in the movement; and by August 1 the State Teachers Association will be housed in a fine, two-story building, all its own.

The Northwest Missouri State Teachers College may have a feeling of pride in this matter for its president, Mr. Lamkin, is the chairman of the building committee of the teachers association, and he has put much effort into the plans for the new home for the association. Only this week he superintended the letting of contracts for the new building. It is a feather in his cap as well as in the hood of the association.

WIDE AWAKE TEACHING.

Miss Dvorak is developing some methods in her classes in the Conservatory of Music which might well be followed by many other instructors. She is bringing new things into her work as often as she finds them practical, and in this manner is making herself of real value to the school.

WHAT'S A CUT OR SO?

A number of students of the College have been reported to the administration for cutting classes. There is no school ruling on the matter of how many cuts a student is allowed in each class, and for this reason there have been some students who have taken advantage of the situation.

These students are the ones who have been called on the carpet, so to speak. Some of them have been given advice and have taken it in the right spirit. Others have played more or less the cad.

There is one instance, in particular. A student was called before the administration and given a correction for having cut classes promiscuously. It was a student who had done poor work during the previous quarter and who was doing bad work when called into conference.

He listened to the advice given him, and then went out and was heard to remark that he had been given a dirty deal and had got more than was coming to him.

All of which reflects no more than a surly spirit and an egotistical view of life. This student seems to feel that the College

owes him an education, and that his part in school life is to attend classes when convenient and spend the rest of his time "thrilling" the girls and in otherwise beautifying the campus.

Some institutions feel that they have to cater to certain students. None should feel that way. This College is bigger than any individual or any hundred individuals, and it will continue long after the present student body is making up the fathers and mothers of another student body.

When a school refrains from making a regulation because it believes its student body is made up of men and women seeking education, it is to be hoped that the chaff will soon be culled to make room for others of a more sane and less bigoted viewpoint.

INTRAMURAL ATHLETICS.

The Department of Physical Education is to be congratulated on its efforts to extend the scope of physical training so that it will be open to all students of the school and will not be confined to those participating in intercollegiate athletics.

Last year it was ruled that there would be no more intercollegiate athletics for women students, and in the place of the half-dozen or so girls' basketball games a system of intramural athletics for women was established. This system has opened a new field for many women students who longed for athletic competition, and it has certainly been a benefit to the school.

And now the same thing is open to men students as well. Mr. Jones is conducting an intramural basketball tournament for those students who are not playing intercollegiate ball. Ten teams of some seven or more men each have enrolled in this tournament, and a new sport is open to a large number of men thereby.

This is a fine move. When basketball season is over the same thing should be done in volley ball or some other sport. For the games are showing that the exercise which they afford is making cheeks rosier and shoulders straighter.

Hail to intramural athletics. They will fill a place which otherwise is left open. They answer a demand which must be filled if we are to have well-organized school life.

Governor Appoints Two Board Members

B. G. Voorhees and George J. Stevenson to Succeed Themselves as College Regents.

Two members of the College Board of Regents have been reappointed by Governor Baker. Early this week the Governor sent the names of B. G. Voorhees of St. Joseph and George J. Stevenson of Tarkio to the state senate for approval.

The two men were reappointed for a term of six years, to end January 1, 1933. Two regents were appointed by the chief executive for each of the five teachers colleges of Missouri.

Why is a kiss? How long is a Chinaman? How far is up? Campus Comedies Friday Night.

Special courses for mothers are offered by Czechoslovakian district committees for adult education and by the Workers' Academy of Prague. Among the subjects are: Social position of women; pre-school education; cooperation of the school and family; self-education of women; what children read; motherhood; structure and functions of the human body; hygiene and disease of women; diet of a child; an exemplary home; knowledge of merchandise; milk and milk products. The instructors are in general physicians, professors, or teachers.—Emanuel V. Lippert.

"Come back, come back," her father cried across the stormy water. Tragedy and comedy combined in the College auditorium Friday night.

Mr. Cooper Gives Seves Principles

(Continued from Page 1)

those which are found in the child's own every day life and experience. We can take little things of life and mould a whole lesson around each of them, and this lesson is not likely to be forgotten.

"In the child's own interest we often find the best educational opportunity, because self-actuated work causes the greatest and most valuable gain to the child."

Mr. Cooper said that the greatest need of the child today is the development of and the training in initiative. He also said that for purposes of development the children must be treated as individuals and not as a group. "Freedom with a balanced responsibility is the best condition for moral and intellectual growth," Mr. Cooper added.

Following is the creed for the rotation plan of vitalized education as outlined by Mr. Cooper:

Creed Is Given.

We believe that the best educational laboratory in the world is the farm and the farm home.

We believe that through the things folks have to do we must and can develop fine human beings. Country boys and girls must live and grow and work and be happy on the farm. Therefore, the farm and farm life should be dignified in our rural schools.

We believe that if farm boys and girls are taught to live in harmony and in sympathy with their every day surroundings they will be more apt to

live happy and successful lives.

We believe that all school life should grow out of home life; that it should take up and continue the activities with which the child is already familiar in the home.

We believe that it is the business of the school to deepen and extend the sense of values bound up in the child's home life.

We believe that the school should not merely change the child's thinking into other channels but that it should constantly lift both his thinking and his living to higher levels.

We believe that by recognizing and taking advantage of the situations of the child's every day life, the home and the school will maintain a wholesome and desirable relationship. A relationship which will dignify the common things of every day life and glorify the work of father and mother on the farm and in the farm home.

We believe, then, that the chief business of the rural school is to so manage the life of situations confronting rural children as to call out the most and the best of their inner resources and then to guide the ensuing experiences

so that the aggregate learning results of skills, knowledge, habits and attitudes shall be best.

Teachers Ass'n First to Build

(Continued from Page 1)

munity, publication of the teachers association.

Building to Be Fireproof.
The building will be entirely fireproof and will follow the lines of architecture of the buildings on the west campus at the University. The building will have 135,000 cubic feet.

The movement for a home for the Missouri State Teachers Association originated three years ago at the annual meeting in Kansas City. It was first presented at the St. Louis meet-

ing in 1923, and was practically turned down by the executive committee.

It was again presented at Kansas City in 1924 with a recommendation from the executive committee that \$10,000 be set aside each year to build and that as soon as half of the cost of the building was raised work would start.

The quota was reached in 1925, but it was decided to postpone building for a year to consider a site. The city of Columbia later gave the lot for the building. It is a piece of ground valued at \$7,500. So, it was decided at the 1926 meeting that the home would be located in Columbia, and it was authorized that there be an expenditure of \$18,000 and accrued interest instead of the \$10,000 originally intended. With the interest, the amount will be more than \$50,000.

Those assisting President Lamkin on the building committee are: Miss Lillie Ernst, St. Louis; J. N. Crocker, Sedalia; C. H. McClure, Warrensburg; and J. A. Whiteford, St. Joseph.

High School Notes

Forest City School

Forest City High School debating team, Eugene Vanhoozer and George Cotten won the debate in group eight of the northwest district in the Missouri High School Debating League. Our team won in a debate over the team of Easton High School on Nov. 30th. On Jan. 11th, our boys defeated the team from Central High School, St. Joseph. This victory made Forest City School winner in group eight.

The Wednesday morning assembly programs in our school are given by the various classes of the High School. Each class is responsible for a program in their turn, then a program is given by the faculty. By this plan class gives a program once in five weeks.

Our High School Literary Society called, The Cosmopolitan Literary Society, gives a general program at intervals of two weeks. Some very interesting programs have been given by the society during the first semester.

We have a lysum course given in our school this winter. Considerable interest is shown in lysum work in Forest City.

Our basketball team has a very good record. They have played eleven inter-school games and won seven of them.

Forest City School has membership in both the Missouri High School Athletic Association and the Northwest Missouri District High School Association, as well as the Missouri High School Debating League.

Grant City High School

The Grant City High School held the semester exams January 6 and 7. Grade cards were issued last week.

The seniors received their rings a few days ago. Thirty-six rings were purchased, each member of the class getting one. The rings were purchased of the Herf-Jones Company at Indianapolis, Indiana. The class of '27 is the largest in the history of the school. The seniors are getting their invitations printed by the Worth County Times.

The girls' basketball team is the best this year that Grant City has ever boosted. To date they have played six games and have been the victors in each, having defeated Allendale, Worth, (two games) Sheridan, Hopkins, and Ravenwood. They have scored 208 points, to their opponents 54. Each game has been won by a large score except the game at Ravenwood which was played January 14. The score was 19-20 in favor of Grant City and the game furnished all the thrills possible in a basketball game. Prof. Brown is coaching the girls this year.

The Tigers, with most of the squad new material, are not making much head-way as yet in the way of victories, but each game shows improvement and hard practice under the direction of Coach Pierce.

The Grant City Cage Schedule: January 21—Parnell at Grant City. January 28—Maloy at Maloy (boys) January 29—Girls tournament at Parnell.

February 4—Parnell at Parnell. February 11—Mt. Airy, Ia. at Grant City.

February 18—Hopkins at Hopkins. February 25—Ravenwood at Grant City.

March 4—King City at King City. The football boys have been presented with letters. Fourteen Tigers re-

ceived the honorary black and gold G this year. They are: Capt. Worl, Galen Phipps, Troy Rowen, Henry Haver, Gaylord Rybolt, Cleo Mercer, Jubal Farrel, Lewis Oehler, Kenneth Martin, Claude Garrett, Orville Duckworth, and Russel cKyes.

A number of students are working for a state letter.

Skidmore High School

Final examinations were given at the high school this last week. This week we take up a new semester's work. Public Speaking is to be given this semester in place of Business English, Economics is being given in place of American Problems, and Arithmetic is to take the place of the second-year algebra.

A literary program was given January 14. It consisted of the following: Song—School.

Orchestra—two numbers.

Quartette—Martha Pfeiffer, Eunice Horn, Glenn Taylor, and Lindsay Stephens.

Reading—Mary Esther Loucks.

Saxophone Solo—Helena Goslee.

Reading—Evelyn Logan.

Violin Solo—Naomi Moorhead.

Talks:

"My Impressions of School Life," By a Senior—Francis Linville.

By a Junior—Katherine Gray.

By a Sophomore—Byron Linville.

By a Freshman—Dean Weddle.

Quartette—Mildred Myers, Dorothy Winger, Maggie Lawrence, and Marjorie Peoples.

Joke Paper—Blanche Brown.

Reading—Evelyn Bodle.

Song—School.

The Skidmore Basketball teams went to Maitland, January 7. The girls met defeat with a score of 21-11 and the boys score was 45-11 in favor of Maitland.

Hale High School

The indoor basketball season of the Hale High School opened Friday, January 7. Both the boys and girls, after a fine week's rest, came back in good shape.

The high school teams of Linneus met the Hale High School Teams on the Hale Court. Both of Hale's teams won their game, girls 11-3, boys 33-11.

The Sophomores entertained the faculty and the students with a delightful Christmas Party, on Wednesday evening, December 22. There was a large Christmas tree and an unusual program, which everyone enjoyed.

Christina Pultz and Margaret Lester, the Hale High School Debating Team, defeated Chillicothe in a discussion of the "World Court", on December 7th. Professor Folsam, of Missouri Wesleyan, was the judge.

Jameson High School

Pupils and teachers are both very busy with regular classroom work. The last of the semester examinations are being given in some of the classes this week, and others are starting new lines of work for this semester. The pupils are taking serious interest in their work and a wholesome spirit of good will and co-operation exists.

The Freshman class is beginning to practice on a program which will be given during assembly hour on February 12th, in honor of Lincoln's birthday.

Owing to the fine weather, the Physical Education classes have been taking their exercises out of doors. New indoor and outdoor baseballs and bats have been purchased by the school as equipment for physical education work.

The Senior and Junior Home Economics classes are making preparations toward giving a "Fashion Show" in

the school auditorium at the next meeting of the Parent-Teachers Association Friday evening, January 28th.

Princeton High School

The boy's basketball team of Princeton High School tied the Mt. Moriah High Team with a score of 20-20. Last week the boys tied with Bethany at 18 all. In the Mt. Moriah game, both teams played a real game from start to finish, with a tie at the close of three extra periods.

The P. H. S. Girls defeated the Bethany girls 21 to 19 last week and the Mt. Moriah girls were defeated by a score of 16 to 12. In the Bethany game the P. H. S. team came from behind a 10 to 0 score in the third quarter to finish victorious.

Nishnabotna High School

The boy's team played basketball with the Corning team on the home court last Friday night. The final score was 19-15 in favor of Corning.

Nishna's line up was as follows:

Player	Position	Points
I. Huffman	Center	5
H. Ray	R. Forward	2
C. Brooks	L. Forward	6
D. Ray	R. Guard	2
E. Brooks	L. Guard	0

(Substitutions) H. Perry and L. Perry

Corning's line up was as follows:

Player	Position	Points
Flanagan	Center	6
Buckminster	Forward	6
Christian	Forward	7
Schooler	Guard	0
Phiel	Guard	0

(Substitutes) Yount.

There was a "double header" basketball game at Nishna, Friday night, January 14, with Irish Grove.

Della, Lucille, Dee and Lee Wade were absent from school Monday because of the death of their Grandmother.

Students in the intermediate room are having examinations this week.

The high school "gang" gave Lucille Wade a surprise birthday party at her home last Friday night, going there after the Nishna-Corning basketball game. Games were played and refreshments were served. Those present were: Harold Ray, Enas Brooks, Charles Brooks, Ed. Logston, Myrtle Logston, Helen Schmitzer, Gladys Cooper, Ruth Adams, Della and Lucille Wade.

The English I class is so full of pep they were getting ahead in their work so now they are studying a classic instead of their text. To further occupy their time they have been given the job of writing the school notes—a task formerly performed by the Junior English class.

The week before Christmas the high school and intermediate grade students

put on the Curtis Publishing Campaign, securing subscriptions for the "Country Gentleman", "Ladies Home Journal", and Saturday Evening Post.

A lively contest was held from Monday to Thursday noon. The contestants were divided into two teams—"Sea Dogs" with Della Wade as captain, and "Pirates", with Helen Schmitzer as captain. Seventeen subscriptions were secured. The "Pirates" were able to secure the majority of these and are to be given a party by the losing team in the near future.

Union Star defeated Helena in both boys' and girls' basketball games Friday. The final score of the boys' game was 28 to 5 in favor of Union Star and the girls game ended 16 to 13 in favor of Union Star. The boys were more sure of their victory than the girls from the first. The girls' game was close and it was hard to tell which team was to be the winner until the end of the game. This makes the second time this year that both boys' and girls' teams have defeated Helena in basketball.

On Friday, January 7, the Junior class of the Union Star High School had a party at Cecil Lee Moyes' home. They invited partners.

Those present were as follows: Mrs. Wilkerson, Mrs. Graves, Miss Wilson, Catherine Warren, Vera Hayes, Evelyn Haynes, Gusta Henderson, Ruth Stanton, Nettie Kephart, Ruby Garrett, Ruth Groom, John Warren, Raymond Garrett, Randall Gottschall, Lloyd McDonald, Curtis Brown, Irvin Richter, Edward Teenor, and Cecil Lee Moyes.

The game they played was Bird, Beast, or Fish. They had two contests in which they gave prizes. Nettie Kephart won the prize for the first contest. Irvin Richter won the prize for the second contest.

The refreshments that were served were brick ice cream and cake.

In the general science class for several months we have been weighing, measuring our height, and trying to improve our diet. Despite the fact that most of us have had bad colds or a touch of the "flu", we are gaining in height and weight. This proves that the right amount of foods and a good diet will give us better health. We did not get this out of a book but proved it ourselves. Experience is the best teacher.

Entertainment for Friday night. Yes—Campus Comedies.

Bashful Gordon Roach of modest mein will announce the Campus Comedies Friday night.

Miss Dvorak Is Using New Method in Violin

Conservatory Teacher Working To Acustom Pupils to Playing in Public.

Miss Dvorak, instructor in stringed instruments at the College, has a plan by which she hopes to accustom her students to playing in public. Playing before the instructor is comparatively easy, but playing before a roomful of critics is another subject.

Miss Dvorak hopes to accustom her students to this by having each one give several solos during the year. These programs are to be given each Friday afternoon in the music room at

the College, and students interested are asked to attend.

The first group was given last Friday and about twenty students were present.

The following program was given: "First Movement of Concerto No. 9 (De Beriot) Carl Reimer. "Serenade" (White)—Audrey Stiwilt. "Tambourin" (Rameau)—Merle Williams. "Rondino" (Beethoven-Krisler)—Vera Smith.

"Rosalind, my love."
"Hush, here comes father."
"—Aw, that's not my cue."

Reindeer herds may be provided for the Eskimos of the northwest territories of Canada. The Dominion Government is investigation the reindeer industry of Alaska, which is under the control of the Bureau of Education.

Two Canadian experts are now in Alaska for that purpose. When their studies of the situation are complete the two men will travel on foot over the country through which the deer will be driven, if they are purchased, in order to determine the route to be followed and to examine the plants with a view to their fitness for forage.—School Life.

Persons interested see Mr. Mapel in his office between 9 and 11 Wednesday, Thursday, or Friday.

The Stroller

By 1111

The Stroller was at the big basketball game last night between the World famous Outlaws and the "Dorm Boys" and it was some game.

The game was one-sided as the "Dorm Boys" had more weight than the Outlaws. The Dorm had the heaviest line by fifty pounds per man, and the Outlaws were unable to gain much ground by line plunges. Early in the first quarter "Whoopin'" Hollar, star forward for the Dorm, hit his stride and scored the first counter of the game. His shifty floor work and accurate passing carried his team far on the road to victory. The Stroller wonders why Coach Lawrence does not have "Whoopin'" on the College string of players as Hollar has nine field goals marked up to his credit.

Wednesday morning in the Assembly Mr. Eek gave some fatherly advice about not buying any gum and candy and spending the money thus saved to buy a ticket to the big game between the Bearcats and the C. C. C. Mr. Lamkin disregarded the advice that was given, because the Stroller saw him slip down to the bookstore and emerge with a package of Spearmint in his hand. When Mr. Lamkin noticed that he had been caught in the forbidden act he kindly consented to "Divvy up" with The Stroller to keep her from telling the rest of the students. If he is at all the games, the Stroller will keep still and won't tell but if he is not, "Oh Boy," won't he have fun when Mr. Eek finds it out?

All band members are admitted to the basketball games free, but when the activity tickets admit, many of the ones who play instruments forget all about a band. The Stroller is willing to bet that we have a large band on non-coupon nights because the admission is fifty cents and the activity tickets do not cover these games. Many are like the Stroller (broke) and are turning up their old horns for the big games and we'll all be there with bells on.

A little inside dope on life at Residence Hall—Campus Comedies Friday night.

Old Saloon Gong to Stop All Cage Games for the College Basketeers

Courtesy Maryville Democrat-Forum: Never more will there be any doubt about when a basketball game at the State Teachers College ends. Never again will there be the feeble "tweet tweet" of the timer's whistle lost amid the roar of shouting cage fans. Never again will there be any question as to whether or not the ball was in the air when the game ended.

For the signal ending the games shall be heard by all.

Many readers of this article perhaps will fondly recall the nights when a monstrous gong pealed forth its warning at the hour of closing at the old Oak saloon. As the gong sounded, the familiar warning, "Get your packages," was given.

The Oak saloon is a thing of the past, but recently the old gong was rescued from the basement of the old building, and yesterday it was brought forth for use in timing basketball games at the College.

A Great Big Gong.

The gong is about twenty inches in diameter, and has a sound which is calculated to stop anything from a basketball game to a duel between seventy-five millimeter guns.

The new-old gong comes as a relief measure to many basketball fans of this vicinity, but particularly to H. L. Raines, Maryville jeweler, who has timed all of the College and Maryville High School games for some sixteen years. Mr. Raines has resorted to a revolver in the past to end basketball

Football Awards Made to Players Wednesday A.M.

Eighteen Players From Team of Last Fall Given Sweaters at Regular Weekly Assembly Period.—Announcements Made.

Eighteen football sweaters were presented by the College to football letter men of the 1926 season at the regular assembly Wednesday morning. These sweaters are those given at the end of every athletic season to those players who fulfill school requirements.

The presentation of the sweaters was made by Burdette Yeo, president of the student government association at the close of assembly. The student president made a few remarks about the team saying that Maryville was always respected in conference football circles and that the Bearcats have made a name for themselves in the gridiron sport.

Sweaters Kelly Green

The sweaters this year are the pull-over type, and are of heavy Kelly green wool. White service stripes are on the left sleeve, and a big white chenille letter M is on the front of the sweater.

In the middle of the M on the sweater given to Capt. "Ikey" Eads is a small green star.

President Lamkin made a number of announcements at the assembly. He spoke briefly on the matter of cutting classes and said that all habitual offenders will be called to his office.

Mr. Eek announced the basketball game with the Catholic Community Club and urged the student body to support the team this year with added vigor.

Wilbur Cox announced the Campus Comedies, which will be given in the College auditorium Friday night. He told briefly of some of the many attractions and insured many outstanding attractions. He also announced the regular meeting of the Student Council for Thursday night in the recreation room of the College.

Of the football sweaters awarded,

six went to boys from Trenton. Maryville was second, with four, and the others were scattered, two going to players who came to the College from Illinois.

Three Players Married

Three members of the football team who received sweaters are married, and two have children. They are Donald Berst and Harold O'Banion.

Following are the players and their towns:

David Eads, Trenton; Vodore Wiloughby, Maryville; Theodore Search, Whitehall, Ill.; Harold Miller, Maryville; Gordon Joy, Ravenwood; Wilbur Cox, Parnell; Kenneth Fouts, Trenton; Donald Berst, Coulterville, Ill.; Bob Westfall, Maryville; Eugene Wilson, Trenton; Charles Graham, Trenton; Robert James, Pottsville; Ora Mullennax, Coffey; Harold O'Banion, Maryville; "Happy" Hartman, Barnard; Leonard Lewis, Trenton; Bert Irvin, Trenton; and Will McCallough, Cameron.

Five of the men who were awarded sweaters this year have completed their collegiate football and will not appear under Bearcat colors. They are Captain Eads, Search, Joy, Cox, and Berst. This will leave two vacancies in the backfield, one at guard, and two at end.

Bearcats Beaten

(Continued from page 1)

cats were to play teamwork, regardless of the outcome.

Early in the game the Bearcats came close to being rattled by the fact that some half-dozen shots which ordinarily would have been good for goals went wild. It looked as though the team was going to have an off night. A fast shot under the basket hit the rim and bounded off. A long shot from the corner hit the backboard and careened to one side. And then a pot shot from an easy angle went into the basket and came out again. Enough to demoralize any team. You bet.

The game was refereed by Les Davis, an assistant football coach at the University of Kansas. He might have done a better job, and today a number of Maryville fans are blaming him for the defeat. He was fair, however, but just didn't seem to see them or to recognize them. At any rate, a number of fouls went uncalled.

Now for the M. I. A. A.

This was the last game at home for the Bearcats before the conference season starts. The Bearcats will go to Tarkio next Monday for a return game with their ancient rivals. Because there is a league engagement on at Tarkio that night it is possible that the Bearcat-Tark game will be played in the afternoon. Coach Lawrence is anxious to get this game out of the way before the conference season starts, and he has suggested that Monday afternoon will be about the best time for the game.

Then, next Friday night, the home conference season begins, with a game with the Springfield Bears. The Bears will also play at Maryville Saturday night.

With the three weeks of non-conference games out of the way, the Bearcats will likely be in fine fettle for the opening of the Missouri Intercollegiate Athletic Association season.

The conference games are already under way outside Maryville. They began last week-end at Cape Girardeau when the Warrensburg Mules won a pair of games from the Cape Indians. Warrensburg Wins Two.

The referee of last night worked both of these games, and reported that the Warrensburg and Cape teams are about evenly matched. Warrensburg won the first game, 31 to 29, and the second, 34 to 31. In the latter game the score was tied at 31-all at the end of the game, and an extra five-minute period was necessary to decide it.

Mr. Davis went to Kansas City last night after the game. From there he hurried to Springfield, where he will work the game tonight between the Bears and the Warrensburg team.

A large crowd attended the game last night. The College band furnished entertainment for an hour before the game, since the Kansas City team was late in arriving. The tilt did not start until after 9 o'clock. The score:

MARYVILLE (34)	G	FT	F
Ungles, f	2	2	4
Hedges, f	6	3	2
Davison, f	0	0	0
Lislo, f	0	0	0
Burks, c	3	0	1
Berst, g	1	0	2
Joy, g	2	1	2
Ferguson, g	0	0	0
Total	14	6	11

C. C. C. (38)	G	FT	F
Ford, f	3	0	0
Thompson, f	4	3	2
Fetting, c	4	4	3
Storms, c	0	0	1
Cross, g	1	2	1
Sanders, g	2	1	1
Total	14	10	8

The College Album will be opened for your inspection Friday Night at the Campus Comedies.

Mr. Gardner Goes to Meeting in Columbia

Mr. Gardner, director of the College Conservatory of Music, will spend this week-end in Columbia at a conference concerning a proposed glee club series of contests. It is proposed to divide the United States into nine districts, and the College has been invited to be a member of one of these districts.

Mr. Gardner will return to Maryville probably on Sunday. He will be sure to be back in time to meet his classes Monday.

Newman Club to Put On Program

At the meeting of the Newman Club Tuesday plans were made for a benefit program to be given to raise money for the clubhouse. What part the club would take in the "Campus Comedies" was also decided.

A committee was appointed to take charge of a banquet to be given the last of January, at the clubhouse.

Carl Reimer gave two violin solos. They were: "Old Refrain" by Kreisler and "From the Canoe" by Gardner.

Bernard Conway gave a short talk on the subject of "Newman Humor."

Bearcats Won Saturdays' Game

(Continued from Page 1)

who fought with added zeal and finally took a four-point lead when the game was in its last minutes.

Hedges, Maryville forward who made the winning goal, was on the sidelines at this juncture. Coaches Lawrence and Jones had given him a rest. He was hurriedly inserted into the game, and his field goal came almost immediately thereafter. Burks dropped in the final counter just as the whistle blew. In fact, the game ended while the ball was in the air.

An analysis of the work of the Bearcats in this game shows that they have improved greatly since their first home game a week ago against the Tarkio College five. The Maryville offense is working more smoothly and the team is breaking rapidly to the defense.

Ungles a Luminary.

Honors for playing Saturday night were divided between Leon Ungles and Hedges. These two players were better than ever before and the brand of basketball exhibited by both was a revelation to basketball fans. Ungles was 40 per cent better than at any time last season, and Hedges has improved twice as much.

Ungles was the particular jinx of the Morningside team.

"Watch that little half-pint," was the warning of the Iowa coach whenever he sent a substitute into the game. But the little half-pint wouldn't be watched. First he would fake and then he would pass. And the next time he would fake and shoot. In fact, he had the Morningside guards fanning the air and hoping beyond hope before the game was many minutes old.

A Good Team Man.

Hedges, on the other hand, worried the visitors outside their defense. He would fake a pass from out in front and then arch a long shot toward the basket. And five times these long arches were good for field goals. But it was the passing and teamwork of Hedges that was outstanding. He is a good team man.

Coach Lawrence started Ungles and Hedges at forwards, Burks at center, and Joy and Berst at guards. Later substituted Lisle at a forward and Ferguson at a guard.

Quite noticeable was the fact that the Maryville players passed more regularly than before on Saturday night. There was more of a tendency to work the ball in under the goal than was

displayed in the Tarkio game. If this brand of teamwork continues, the team will improve still more during the coming weeks, and will present more formidable front in conference games.

The library will be closed Friday night, but the auditorium will be wide open.
